

Citrus County Rocks!!!

This has been a big year for Citrus County School Nutrition Association. Misty Fried started off with what can only be called a windfall of awards by winning SNA's Manager of the year for the state of Florida. At the SNA's conference this year, Paul Ingram took home the LINQ Lunchroom Rockstar award and at FSNA's conference he took home the Leadership Award-Employee/Manager level. That was not the end of it Jennifer Hurtado won the Innovative Idea Award-Employee/Manager, Gwendolyn Freier won the Leadership Award-Administrative/Supervisory level, and Laura Beetow won the Community Humanitarian Award. We are so proud of all our winners. As an Association we saw some growth in our member numbers at last count we were at 49. Woo-hoo!!! We also had a fun time with NSLW and several of our schools were involved with it. This year we also started Throwback Thursday where we have meals on the menu from back in the days. We even dress up with clothes from different decades and the music from that decade is playing. Everyone is having fun with it. Maybe too much fun but after the years we hand we deserve it.
